

# Professional Services for RUCKUS One®

Offered by RUCKUS® Professional Services

## BENEFITS

- **Accelerated Deployment:** Speed up implementation timelines with expert assistance to enable your RUCKUS One platform to operate quickly and efficiently.
- **Optimized Configuration:** Enhance optimal performance with tailored design and configuration services, leveraging best practices for network management and assurance.
- **Future-Proof Scalability:** Build networks that grow with your business, integrating features like AI-driven insights, seamless multi-site management, and customizable service catalogs.
- **Enhanced End-User Experience:** Deliver exceptional experiences through optimized configurations that improve network reliability, performance, and user satisfaction.

## UNLOCK THE FULL POTENTIAL OF RUCKUS ONE

The RUCKUS One solution is a powerful AI-driven network assurance and business intelligence platform that transforms how businesses manage their networks. To maximize its value and enhance seamless integration into your environment, trust RUCKUS Professional Services to help deploy, configure, and optimize the RUCKUS One platform to your specific needs.

### Professional Services Offerings for RUCKUS One

- **Comprehensive Platform Integration:** Integrate RUCKUS One with your existing infrastructure, enabling smooth migration and minimal disruption.
- **Custom Network Design:** Tailor RUCKUS One deployments to fit unique business environments, whether in multi-site enterprises, MDUs, hospitality, or manufacturing.
- **AI-Driven Network Assurance Optimization:** Unlock the full potential of the RUCKUS One platform's advanced AI capabilities for real-time issue detection, automated root cause analysis, and actionable insights to meet critical SLAs.
- **Service Catalog Customization:** Extend the platform's capabilities by integrating services like security, IoT management, and third-party applications.
- **Secure and Scalable Network Solutions:** Leverage the RUCKUS One platform's zero-touch provisioning, secure network access, and advanced policy management to enhance operational efficiency.

### Core Features Supported by Professional Services

- **Unified Management:** Single-pane-of-glass management for streamlined operations across all network venues.
- **AI-Driven Insights:** Configure and optimize AI-driven AIOps features, including trend analysis, root cause identification, and performance recommendations.
- **Custom Dashboards and APIs:** Develop bespoke dashboards and customize workflows with RESTful APIs to meet specific business requirements.
- **End-to-End Network Visibility:** Implement and test visibility tools to monitor devices, troubleshoot issues, and enhance a secure user experience from client to AP to switch.
- **Data Retention and Reporting:** Extend data retention for long-term analysis and create tailored reports that provide actionable insights for business improvement.

## Professional Services Packages

### Remote Integration and Consultation:

SKU: 905-PRO1-R1AIS	<ul style="list-style-type: none"><li>• Includes architecture discussion, platform setup, and initial configuration for single-site deployment.</li><li>• Advanced setup of AI-driven features for real-time monitoring and automated troubleshooting.</li></ul>
---------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## MAXIMIZING INVESTMENTS

RUCKUS' Services can be fully customized to meet the unique needs of your business. Our offerings include comprehensive survey, design, and architecture services for Wi-Fi®, ICX® LAN, and IoT solutions. We also provide seamless integration with the RUCKUS Edge™ and Cloudpath® solutions to secure and future-proof your network. This flexibility enhances your infrastructure design to deliver exceptional connectivity, security, and scalability.

To help optimize technology investments, RUCKUS and its partners offer complete solutions that include education, support, and services. For more information, contact a RUCKUS sales partner or visit <http://www.ruckusnetworks.com>

To engage RUCKUS Professional Services for RUCKUS One Services, or for more information about other Professional Services, contact your RUCKUS Account Manager, Systems Engineer, or email us directly: [ruckusproservices@commscope.com](mailto:ruckusproservices@commscope.com)

A quote for this service will be available after a virtual conference call is held to clarify the scope of work.

Disclaimer: The RUCKUS Professional Services are typically limited to the evaluation, optimization, and support of RUCKUS-branded equipment, including Wi-Fi access points, ICX switches, controllers, and related software. Non-RUCKUS equipment is not covered under this service unless expressly called out in the scope of work.
